

**TREW SOLUTIONS NZ Limited (Trew)
CONSULTING AND SERVICE AGREEMENT**

Software applications for financial management are generally more complex than simple Microsoft applications. There are always complexities in the software that need to be addresses as well as the general questions about business processes, accounting policies and general "how best questions." As a result it is standard for clients to require regular and on-going assistance with the software. It is thus always reassuring to know that with **Support Cover** you have access to a team of experts who are ready to help you and your staff and with the assistance of our trained and experienced team you will always have total peace of mind.

Support Cover is a program which benefits the operation of your Software system and delivers tangible benefits from the outset. In order for Trew to provide this support, which often requires many hours of work in researching the problem and finding appropriate solutions, we ensure that our staff attend regular up-skill courses and maintain our knowledge with the relevant Software products. Due to the complexity of various maintenance agreements which can be put in place with the respective Software Suppliers, a range of options are offered from Trew to ensure that you receive the best possible backup, support and service.

Sage Pastel Evolution Enterprise and Professional are both annually renewable Software Solutions. This entitles you to free upgrades/updates. All Evolution clients are requires to have a Trew Support contract in place.

OFFICE HOURS:-

Our normal hours of business are 8:30am to 5:00pm Monday to Friday excluding Public Holidays. We do offer after hour support, however this should be arranged in advance as far as is possible. After hours service will incur an additional charge.

REACTION POLICY:-

Our policy is to address support issues on the following basis:-

All clients on a Support Cover plan will be given priority support.

Critical	Solved ASAP	A problem which interrupts the processing or causes other serious interruption to all users of the system. This results in the daily operation of the business coming to a stand still and where no work around solution can be found.
Serious	Solved within 24 hours	A problem which interrupts the processing or causes other serious interruption to some users of the system. This results in the daily operation of the business being interrupted and where no work around solution can be found.
Medium	Solved within 48 hours	A problem which interrupts the daily processing of a single user on the system or where the impact is not critical to the operation of the business.
Low	Solved within 72 hours	A minor fault or problem with the software which does not interrupt the daily processing or critical operations of the business.

Trew Solutions NZ offer a **Support Cover** contract giving you quick and easy access to telephone or email advice from one of our support advisers. This support covers answering questions which can generally be resolved in 20 to 30 minutes, about your Software System.

***NB:** While every effort will be taken to resolve issues under the telephone or email support, it must noted that some issues cannot be resolved within the time allocated or without a visit to your site / remote access. These issues are charged at our normal rates.*
